Linda D. Resch and Linda C. Joseph Instructional Information Services Create a collage of geometric shapes, label the shapes, draw a figure to depict a scene in a book, create a web to illustrate important parts of a book, and use your imagination for all of the possible applications to use this tool with students in their academic classes. The word art would make interesting covers for reports of all kinds.

Label the circle, triangular prism, cylinder, cone, trapezoid, right triangle, rectangular prism, oval, octagon, parallelogram, and triangle.
